Forecast for Sunday 01 Dec 2024

Weather: Cloudy with outbreaks of occasionally heavy rain and drizzle through the early hours, the rain turning lighter and patchier through the morning. Some brighter spells possible around midday and in the afternoon but still some patchy rain and drizzle around. Further outbreaks of mainly light rain expected through the evening.

Chance of cloud-free hill tops above 600m: Little chance for much of the morning but rising to around 30% from midday to mid-evening.

Low cloud and visibility: Periods or persistent cloud 450-600m, with patches below in rain and drizzle, through the morning and evening, but lifting, and perhaps becoming more occasional, above 600-750m at times from midday. Away from cloud visibility good falling to several kilometres in rain and drizzle.
